Take a private [Aswan tour](#) to see a modern and an ancient engineering marvel in Aswan Egypt when you visit the High Dam and Unfinished Obelisk. See two of Egypt's engineering wonders with the incredible Unfinished Obelisk lying exactly as it fell, and the world famous engineering miracle that is the High Dam. Book now your [Egypt excursions](#) with Your [Egypt Tours](#).

tour.itinerary

Day 1

Itinerary

Journey across Aswan with Your Egypt Tours and visit the High Dam and Unfinished Obelisk. Your personal Egyptologist guide will accompany you and provide you with a rich background of these engineering wonders. Determine the amount of time you would like to spend at each site during this private tour.

Depart from your hotel or cruise ship and travel to the High Dam of Aswan. This world-famous High Dam provides electricity for the region while regulating the flooding of the Nile. The construction of the High Dam consists of more material than that used in the Great Pyramids of Cheops.

Continue to the Unfinished Obelisk found in the granite quarries of Aswan. This fascinating obelisk still lies where it was carved. Your qualified Egyptologist guide will explain how the 1-tonne obelisk was carved and why the crack discovered caused it to be abandoned.

At the end of your tour, transfer back to your hotel or cruise ship for a relaxing evening.
