Day

Itinerary

An expert Egyptologist will accompany you on your personalized tour, so you can begin your tailored expedition from your hotel or the dock. You may decide how long to spend at each fascinating location to ensure that your experience is unique and significant.

The legendary conqueror Alexander the Great established Alexandria in 312 B.C., making it the center of Greco-Roman Egypt. The beginning of your journey takes you into the underground splendor of the Kom El-Shokafa Catacombs, a tomb where the artistic talents of the Roman and Egyptian people combine to create truly astounding structures. Once you enter these graves to find the legendary Hall of Caracalla, an ancient relic buried beneath the surface of history.

When we return above ground, the Alexandria Library will welcome us with its modern architectural magnificence. This wonderful Norwegian-designed work of art stands in stark contrast to the ancient ruins that can be found throughout Egypt. This library is one of the best in the world, with copies of every published book and exhibitions about Egyptian history, as well as a remarkable collection of rare manuscripts (for an additional cost).

Your journey ends at the mighty Qaitbay Fortress which stands on top of what once used to be a site for the Great Lighthouse in Alexandria. Take in these panoramic views and feel how weighty is history before being driven back to your hotel in Alex where you have all sorts of things going through your mind after such an exploring day.

Your voyage concludes with the towering Qaitbay Fortress, which lies on top of the former location of Alexandria's Great Lighthouse. Take in these magnificent views and feel the impact of history before being taken back to your hotel in Alexandria, where you will have a lot on your mind after such an adventurous day
